Diebold's advanced-function, through-the-wall walk-up ATM is the optimum way to help achieve your business goals

Increased Functionality
Modular construction allows you to add features and functionalities quickly and cost effectively.

Enhanced Design
Contemporary, sleek design fits any interior or exterior surroundings.

Open System Software Support
Opteva™ terminals are powered by Agilis™, Diebold's high-performance software, which interfaces with a variety of multiple-vendor products to decrease your need for backend support.

Reliability
With large-capacity consumables and intelligent modules that forecast predictive maintenance needs, you can count on maximum availability for each machine.

Installation Flexibility
Can easily be retrofitted to fit existing full-function through-the-wall automated teller machine (ATM) openings.

Enhanced Security Features
Reduce risk exposure with enhanced ATM modules incorporating the latest in fraud-preventive mechanisms.

Simplified Service
Lower ongoing operating costs with our intuitive graphical interface that simplifies maintenance functions and makes it easy to train new branch personnel.

DIEBOLD OPTEVA™ 760

Advanced-function, Through-the-wall Walk-up ATM

DIEBOLD®

Opteva™

Opteva 760 Features

Build your self-service delivery channel upon the power of Opteva hardware, Agilis software and Diebold Premier Services™. Together, they provide everything you need *today*, yet enable you to add new features and functions with unparalleled ease anytime *tomorrow*. Turn to Diebold for the complete self-service solution: hardware, software, and total services and support. Make it simple. Make it Diebold, the one company that can maximize the return on your self-service investment.

Architecture:

Ergonomically designed fascia meets accessibility standards

Minimized ATM footprint offers the most functionality for the footprint size
